(Per Steamer G. W. Elder.)

MONTREAL, June 15.—It is rumored here that the Allan Steamship Company have offered to sell all their steamers to Mr. Senecal for $10,000,000. Mr. Senecal was in town yesterday and visited the Montmorenci saw-mills, which he has just purchased from the Hall estate. It is said he has declared he will work the mills himself and not sell them. He left last night for Montreal with Premier Mousseau.

It is reported to-day that the Department of Justice has been informed that Carey, the notorious Dublin informer, has expressed a wish to be sent to Canada if he cannot be allowed to remain in Ireland.

So far as reported the following is the result of the vote of the Methodist Episcopal Quarterly Official Boards upon the basis of union:—Yeas, 30; nays, 5; ties, 3.

HALIFAX, N.S., June 8.—One of the best gold discoveries so far in Halifax County has just been made on the old Dewolf property at Montague, close to the celebrated Rose lead. Three leads, respectively 33, 11, and 7 inches in width, have been found about twelve feet below the surface, and give indications of a rich yield. The richest appearing lead yet discovered in Chozzetcook district, one five inches in width, has also just been found by John H. Anderson a little to eastward of the Oxford Mining Company's property.

BERLIN, June 8.—Dr. Bowlby's office was burglarized on Thursdoy night and the safe opened, how is not known, and some $110 in cash was abstracted, jewellery to the value of $400, a lot of private papers, and a purse of money given Mrs. Bowlby on Wednesday by the congregation of St. John's Church, of which the lady had been organist for twenty years.

HALIFAX, N.S., June 14.—The banquet given to Sir Charles Tupper in the Halifax hotel to-night by the Conservatives of the city was one of the most successful affairs of the kind that has ever taken place here. The company present numbered 112, among whom were several leading personages from the upper provinces. Mr. John F. Stairs acted as chairman, and the guest of the evening sat on his right, and Sir Alex. Galt on his left.

QUEBEC, June 8.—Probably the largest conveyance of real estate ever made in the Dominion to a private individual was made yesterday, the vendors being the executors of the late G. B. Hall, of Quebec, the well known timber limit and sawmill owner. The purchaser was L. A. Senecal, and the property transferred comprising, among other features the famous sawmills at Montmorenci Falls, the Radnor forges, near Three Rivers, and over 2,662 square miles of timber limits in this province alone, besides various other lands in the Eastern Townships and elsewhere. The deed, which covered 260 pages, was signed in his own behalf by Mr. Senecal, who paid down $250,000 cash on account of the purchase price of $1,600,000. Hon. Geo. Irvine, who leaves shortly for Europe on professional business, acted as legal adviser of the Hall estate.

Major Larkin, of St. Catherines, has arrived in town, and it may be mentioned that the price at which the Ottawa Government has awarded the contract for the construction of the cross wall of the Quebec harbor works to Larkin, Connolly & Co., is $640,000.

OTTAWA, June 12.—A middle aged man, giving his name as John O'Donoghue, came to the Bishop's palace this morning with a small axe in his hand and demanded to see one of the priests. On Rev. Father Sloane appearing, O'Donoghue said he was commanded by the Virgin Mary to cut off one of his fingers as a penance for a sin he had committed. Suddenly he placed his left hand on the table, and raising the axe he chopped off the little finger before any means could be taken to prevent him. He then avowed his intention to cut off a foot for the same reason, and was proceeding to do so when he was secured and the axe taken from him. O'Donoghue, whose residence could not be ascertained, was taken to the General Hospital, where the stump of his injured finger was dressed. He was afterwards taken under arrest for lunacy by policemen Thompson and Proulx, and is now in custody in the county gaol. He is evidently a religious crank.

TORONTO, June 15.—Mrs. Smith, who is charged with murder at Shediac, has been committed for trial.

The Laval election resulted in the return of Dr. Gaboury, the Opposition candidate.

An infuriated hog attacked a farmer of Wallace Township named George Gordon biting the unfortunate man, severing an artery and causing instant death.

A suit has been entered at Montreal against Mr. John Rankin and the directors of the defunct Consolidated Bank at the date of its failure. The plaintiffs assert gross negligence and mismanagement and wilful misrepresentation of the affairs of the bank.

BELLEVILLE, June 8.—Mr. Dickson's little son Douglas, aged four, who was poisoned with eggs and paint on Sunday, died at an early hour this morning. Every effort is being made to secure the arrest of the perpetrators of the inhuman act, who are now said to be boys of from ten to twelve years of age.

NEW YORK, June 9.—Jas. A. Thompson, clerk, was held for trial today charged with stealing from his boarding house. Thompson's mother is wealthy, and lives at Cote St. Antoine, near Montreal. He was formerly a clerk in the Canadian office of the Grand Trunk R.R., of which his uncle is a director. He resigned to accept a clerkship in the Canadian Pacific R.R. He says he came here at the solicitation of a young woman, and that poverty forced him to steal.

Poultry.

WHEN young fowls peep in an unnatural tone or voice, and stand drooping their wings, it is pretty certain that they are troubled with worms in the throat, or are afflicted with lice. The worms may be removed with a horse-hair, having a loop at the end, and running it down the throat, twisting it around several times and then dragging it out. For lice grease the fowls under the wings until the lice disappear.

SHOULD a fowl become crop-bound, work the crop well with the hand, and endeavor to force away the obstruction in the passage-way to the gizzard. Should this fail, draw the skin to one side and cut the crop sufficiently to relieve it of the contents. Sew up the wound with silk, and the fowl will not be seriously damaged. After the cutting be sure that the obstruction in the passage is removed as well as the contents.

IT is almost useless to attempt to fatten poultry while running at large. They should be confined in well ventilated coops, or restricted to a limited range separated from the other fowls. Their meals should be furnished regularly three times a day, and plenty of pure fresh water with lime, sand, broken bones, etc., and ashes, or dust from the road to wallow in. Their food should be varied, wheat screenings, corn, buckwheat, boiled potatoes, and occasionally oats. These are all excellent for fattening.

A PRAISEWORTHY OBJECT.

"None name it but to praise." This is true of that unsurpassed remedy, "Hagyard's Yellow Oil." It cures pain and inflammation, whether from sprain, bruise, or frost-bite, lame back, rheumatism, neuralgia, sore throat, croup, deafness, and for internal and external use. (31)

A RAMARKABLE FACT.

It is a remarkable fact that W. A. Edgers, of Frankville, who was so far gone with liver and kidney complaint that his life was despaired of, was cured with four bottles of Burdock Blood Bitters. At one time he lay a fortnight without an operation of the bowels. (36)

DR. COOPER'S VEGETABLE LIVER-WORT AND KIDNEY CURE

Has no equal as a safe remedy for all diseases of the liver, kidneys and urinary organs. Over 250,000 bottles sold during 1882. Price $1 a bottle. MOORE & Co., sole agents. dw

POPULARITY.

Why they are popular. The reason that National Pills are so universally popular is because they are certain in their action, mild and painless in their operation, and never leave the bowels constipated. They are sugar-coated, and contain no mineral poison. (35)

THOUSANDS have used Dr. Van Buren's Kidney Cure and willingly have testified to the immediate relief it gives after a few doses in Kidney troubles, and how a few bottles always effect a permanent cure. No one can afford to be without it. 1w

THE FRENCH BALSAM OF HONEY is especially adapted for coughs and colds in this climate. It never fails. Only 50 cents a bottle. None genuine unless a beehive and the name of Moore & Co., Yates street, Victoria, B. C., is on each bottle. dw

DR. CHAN TAN TONG, from Canton, skillfully and confidentially treats all diseases of men, women and children. Office Bow Gee Tong, Government street. Dr. Chan Lan Tong practiced at San Francisco for ten years, and guarantees a cure as he uses hot medicines.

AFTER many years of patient investigation Dr. Van Buren, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for Dr. Van Buren's Kidney Cure. 6td4tw

TO ENSURE QUALITY.—Neufelder & Ross, grocers, import choice Zinfandel Riesling and Angelica wines direct from California vineyards. For family trade these wines are noted for purity and flavor.

WEDNESDAY MORNING, JUNE 27th, 1883.

L. P. FISHER, Advertising Agent, 21 Merchants Exchange, San Francisco, is authorised to receive advertisements for the columns of this paper.

THE CUSTOMS DEPARTMENT.

The postal system is not the only grievance we have that it lies in the power of the Dominion government to remedy and while that matter is being represented in the proper quarter it would be well that our crying need for more help in the customs department should be equally ventilated. For many years past there has not been any increase in the number of customs officials who did duty when our commerce was comparatively limited; and at this present day the same number have to wade and struggle through the work resulting from an ever increasing trade with foreign countries, (the duties collected upon which for the last month amounted to $89,593,) without taking into account the time and trouble required to pass non-dutiable goods through the customs. Take yesterday as an example: at one time during the day as many as twenty people were waiting at the custom house for the purpose of clearing goods, with two clerks only to attend to them; that being the total number who are deputed for this purpose. The same complaint applies equally to the tide-waiters, who are three in number; and when at last some fortunate person has after some hours' endeavor become possessed of the necessary papers, it is very often three or four hours before an official can be found with sufficient leisure to unlock the warehouses. It is a notorious fact that clerks have been called out of bed during the small hours to clear goods or attend to some matter connected with their business duties. Our trade has become so large and is increasing so rapidly, that should this state of things be permitted to continue it will become a most serious obstacle to the successful prosecution of our commercial relations, and still further paralyze the energy of our business men; and through them injure every inhabitant of the province. The fact that British Columbia, in proportion to the number of her inhabitants, contributes a larger amount of revenue to the Dominion than any other province, should surely entitle her to some consideration in this matter, especially as it materially affects her prosperity and through her affects also the Dominion of Canada, who will act suicidally if she longer ignores the natural requirements of a source of revenue whose movements, for their own sake, she should see are untrammeled.

THE PUBLIC LANDS.

It is encouraging to find that in spite of the evil advice from certain quarters a great many immigrants have gone upon the public lands of the province and are selecting homes in the fertile valleys of the island and mainland. Sooke has received a considerable accession to its population; much of the unalloted land in Saanich peninsula has been applied for. Nanaimo and Cowichan and the island dependencies of Vancouver are points of attraction which have not escaped the notice of intending settlers; and Comox is likely to benefit largely by the recent throwing open of its lands. In New Westminster since April there have been about 100 squatter locations; and in Yale district, particularly in the Spallumcheen valley, men and families are rapidly settling on vacant lands. At the present time the country is attracting both population and capital; and but for the misrepresentations of an opposition press, there would not be found north of the 49th parallel a single discontented person. In spite of these misrepresentations the government policy in advertising the country abroad, in publishing maps and handbooks, and in making peace with Canada is already bearing fruit. The immediate yield may not be as prolific as it was at first hoped; but the future is full of promise and the harvest will be large. On every side there are hopeful signs, and in the present condition of business and the steady filling up of the country there exist cause for congratulation. Pending the issue of the proclamation opening the lands immigrants may enter upon them and rely with confidence upon the declaration of the Dominion premier that they will be offered to actual settlers (i. e., squatters) at the nominal rate of $1 per acre. To immigrants we would say: "Get a piece of land. Make yourselves fixtures. If you cannot secure a title at once, 'squat,' and await the appearance of the proclamation with patience."

POSTAL.

The efficiency of the postal system in British Columbia has always been inferior to the demand that consideration for the proper accommodation of the public has called for. No additional person has ever been employed in our postoffices until the properly meet it would warrant engaging extra work became so great that to the services of at least two or three people. At the present time there is no such thing as a postal delivery. The economy that is observed in this direction should certainly militate in favor of the employment of a greater number of clerks in the office. The increased mail service that we have lately received, by offering greater facilities for expeditious correspondence, brings us larger quantities of mail matter than we have previously received which of course necessitates a large amount of extra work at the postoffice. No sooner does even an up-country mail arrive at Victoria than "bang!" goes the wicket, the only means of access to its letters that the public has, (excepting the favored few who possess boxes) and this simply because there are not sufficient hands to sort the mail and give the public its letters at the same time. New Westminster, it appears, has similar cause for complaint and it must be evident to all that the matter is sufficiently pressing to demand and receive immediate attention.

Warning!

An injunction has been awarded by the supreme court, restraining Langley & Co. ("Pharmaceutical Chemists, Yates street") from making use of labels similar to the labels of our celebrated French Balsam of Honey, and the public and dealers are cautioned against buying any bottles of French Balsam of Honey, except our names are attached thereto.

PARTICULARS OF THE DEATH OF FRANK HATTON

In the Jungle of North Borneo.

On the 26th of March, says the *Daily News*, we chronicled the death of Mr. Frank Hatton, the only son of Mr. Joseph Hatton, while on an expedition of exploration in North Borneo. The news came by way of Hongkong. It was tragic in its simple brevity. The pathetic details have only just reached London. They are contained in dispatches from Governor Treacher, President Pryer and the notes of the first inquest ever held on an Englishman at Elopura, on the north-east coast of what has been, not inaptly, called "the Garden of the Sun." Mr. Hatton was conducting an expedition in an hitherto unexplored district, with a view to determine the geological character of the Seguama river and certain regions of the Kinabatangan. His expedition consisted of four boats. He was in the first, Mr. Beveridge, an Australian mining expert, in the last. The first boat was an hour in advance of the others. Mr. Hatton fired from the river at an elephant on the banks and wounded it severely. Leaping ashore with his mandore, a Malay, he gave chase. The elephant pausing, as they thought at bay, they returned for reinforcements. Arming a few of his men with Snider's, Mr. Hatton led the way into the jungle. The elephant had moved off, and, night coming on, Mr. Hatton was persuaded to return. Mr. Hatton when penetrating forest country had been in the habit of carrying a stick to remove obstructions of vine and creeper. On this fatal occasion he raised his Winchester rifle to move an overhangiug creeper, stooping at the same time to pass underneath it. The weapon became entangled, the muzzle was twisted towards him and exploded, the trigger having been pulled by some twigs of the vine. "Ovodeen, Ovodeen, mati sayah!" he exclaimed. Ovodeen was the name of his Tutong boy, the rest is Malayan for "I am killed." His men were all around him in a moment. They caught him as he fell, and he murmured his boy's name as he laid his head on his shoulder, lost consciousness and died. Mr. Beveridge arrived on the scene at the moment, and found the young scientist's dusky followers weeping, Ovodeen having the deceased's head upon his knee. So surprising was it to Mr. Beveridge that Mr. Hatton, noted for his coolness and his care in the management of his weapons, should have shot himself, that he said, "Who has done this!" Shedding bitter tears, the men explained the incident (Beveridge had heard the shot, and was by Mr. Hatton's side within four or five minutes) and, after satisfying himself that their story was only too true, he had the body carried to the boats. It was night now, and some lamps which Mr. Hatton had lighted, in his resolve not to leave a wounded elephant in the jungle, were used to throw a light upon the embarkation of his corpse. And now followed one of the most affectionate acts of devotion in the records of travel. Under the direction of Mr. Beveridge 11 of the deceased's faithful followers paddled the body in a native "go-bang," or boat, by river and sea to Sandakan, a distance of nearly 170 miles, and without sleep night or day, over the unknown river and finally into the sea, coasting along the north-east shores into the bay of Sandakan, where they arrived soon after midnight, having pulled for 53 consecutive hours, only resting three times for half an hour to eat a little rice. An inquest was held. The jury's verdict described the manner of the accident, and deplored "the sudden death of Mr. Hatton, who as an explorer and mineralogist had proved himself of much value to the North Borneo company and to the world generally, and on account of his many social qualities;" and they registered their approving admiration of the conduct of Beveridge and the natives in bringing the body to the Residency. The funeral at Elopura was attended by all the Europeans and by most of the natives and Chinese residents of Elopura. The body will be exhumed for final interment in one of the London cemeteries. The sad story of a brilliant career thus untimely closed finds a characteristic conclusion in the fact that the body is expected to arrive in England at the end of July or beginning of August, close upon a time when a loving and united family hoped to have welcomed the traveler home again.

CARLYLE.

A Sister of the Distinguished Man of Letters Defends his Treatment of his Wife.

CHICAGO, June 22.—Jane Carlyle Harrison, younger sister of the late Thomas Carlyle, was interviewed by a "Times" correspondent at Detroit to-day, and said, "Let people say what they will, Tom loved Mrs. Carlyle, and mourned for her unceasingly to the last hour of his life. He was a great sufferer from dyspepsia. I have known him to pass many nights of sleepless torture with what he called his 'diabolical stomach,' but never saw him cruel or more irritable than other men. He and Mrs. C. were very happy in each other, but in summing up their life this ought to always be remembered—she had no children.

SINCERELY ATTACHED TO EACH OTHER.

As the years went on she tired of reading and felt more and more the need of her husband's close companionship. He could not give it, being wholly devoted to letters, and so I suppose she brooded over it a good deal. Nevertheless they were sincerely attached to each other, and in times of vacation he was as playful as a boy with her." Mrs. Harrison said of her industrious brother, that aside from rare visits to the theatre or opera, he had no recreation; that he did much of his profoundest thinking on horseback. He was extremely fond of children. He delighted in music, as it rested him, especially liking his wife's playing. That he never had close relationship with any men, except Emerson and Goethe, to whom he was quite attached.

Eastern States.

CLEVELAND, June 24.—The body of Chas. F. Goodwin, cashier of the Lake Shore freight house here, was found today in the lake near the breakwater. Undoubtedly he committed suicide. His accounts prove him a defaulter of $7000, although he had sufficient property to pay his debts. His suicide therefore is not fully explained. He left no letter or word of any kind. He was regarded as a model, upright man, and it is proved that he lost his money speculating in grain.

VIENNA, La., June 23.—Duke, colored, who entered the sleeping apartment of the Misses Cooper in this parish, two weeks ago, supposed with criminal intent, was found by a body of his pursuers today and shot to death.

THE NORTHERN PACIFIC.

THE LAST SPIKE TO BE OF GOLD

And to be Driven in August.

CHICAGO, June 24.—It is learned here that active preparations are making for driving the last spike in the Northern Pacific. The spike will be of gold. It is already made, and is in the possession of President Villard. It has engraved upon it an inscription suited to the occasion. The place selected for its reception is about ten miles from Helena, in the direction of Portland. It was at first the intention of the company to restrict the number of invited guests to 100, but arrangements now are making for 400 people. Quite a number of these will be from Europe. Invitations will be issued from New York by President Villard. A special train will be made up there and run direct to the spot selected, stopping only at Chicago and St. Paul to take on invited guests. President Villard will give the spike the first whack. The spike itself will not be the only thing made of precious metal. The sledge with which it will be driven is now being made of solid silver with ebony handle. Both the spike and sledge will be retained as souvenirs by President Villard. From the site selected a special train will go to the Pacific coast, repeating the inspection trip recently made by Villard. The exact date is not yet fixed, but it will probably be in the last week in August.

What Some People Say.

That *The Weekly Colonist* is now ready for mail.

That strawberry shortcake is so called because it is short of st rawberries.

That a white man has been captured among the Apaches.

That the story of the intended abdication of Her Majesty was a pure fabrication.

That Rev. Mr. Malachi is slightly better. He is at the French hospital and not at St. Joseph's hospital.

That President Arthur will come to Puget Sound via the Northern Pacific in September.

That the Port Townsend *Argus* has put in a cylinder press.

That Kurtz & Co. now employ 51 hands at their cigar factory.

That Mr. Arthur and his cabinet are coming in for some very free criticisms. The Washington *Gazette* proclaims Folger a licentious imbecile; Arthur a "dude," who was drunk last week; Brewster a sot and Frelinghuysen a dotard.

That the total population of the Dominion of Canada is 4,350,933.

That ask a woman how old she is if you want her to show her rage.

That Cole, the circus man, is 33 years old, and said to be worth $4,000,000.

That an electric light about the size of a small bean has been constructed and used successfully in illuminating interior portions of the human body.

That if the knees of a man's pants show wear nowadays, don't attribute it to constant attendance at prayer meetings. It is the season for laying c rpets.

That "dear" means beloved, also expensive. How often the two meanings are combined in one woman.

That there is said to be one physician to every thirteen families in the United States.

That a London actress recently carried off the prize for cooking in the South Kensington school.

That they were sitting on the porch one night, watching for comets, when she said softly, "George, dear, couldn't we try light housekeeping?" "No," said George, mistaking her meaning, "lighthouse keeping is too solitary a life, besides it takes influence to procure the position; and I haven't even a vote." "George," she answered, removing his arm and rising as she spoke, "Henceforth I can only love you with a mother's love. You are too young for me," and her fairy form disappeared through the doorway.

That the plum crop will be short.

That two or three officers of H. M. S. Mutine were very successful in a recent trout expedition to a lake near Port Moody. They caught 50 or 60 fish in a short time.

That the Chatham farm wagon with patent climax truss axle is imported only by Fellows & Prior, Government street, who are sole agents for the province. It is the best wagon now made, light running and durable.

That the Victoria Transfer Company are prepared to transfer baggage to and from steamers, or convey packages and parcels to any part of the city. Telephone calls, 129 or 113.

That copies of the tariff changes may be had at *The Colonist* office and the bookstores to-day.

Art Exhibition.

The attendance of visitors to Mr. G. T. Brown's picture gallery on Government street was considerably greater than that of the day previous. During the afternoon his honor the lieutenant governor was present and purchased a painting entitled "Twilight on the South Thompson" (a very pretty scene) and expressed himself greatly pleased with the collection. Those who are in the habit of boating on the Arm will at once recognize the truthful likeness in the view called "Above the Gorge." "Long Lake, B. C." and "Clover Point, Victoria," are also worthy of notice, and at the risk of repetition reference must again be made to the extremely beautiful painting "Sunset on Shuswap Lake," marked in the catalogue as No. 9. It will probably be quickly disposed of. Mr. Brown is already selecting fresh subjects for new pictures.

Caution to Foreign Fishers.

Elsewhere is published a notice forbidding any foreign ship, vessels or boats, not navigated according to the laws of the United Kingdom, or of Canada, to fish for, take, dry or cure, any fish of any kind, within three marine miles of the coasts, bays, creeks or harbors of Canada, not affected by the Convention of 1818, and the Treaty of Washington, between Great Britain and the United States. Ships, vessels and boats, together with all goods, tackle, rigging, apparel, furniture, stores and cargo liable to forfeiture under the said Acts, may be seized by any of the officers hereinafter named: Fishery officers, customs officers, sheriffs, magistrates and commissioned officers of Her Majesty's Navy.

Marine.

Yesterday the steamer Alexander towed up the barque Nanaimo to Nanaimo, and will bring down the ship Alaska from Departure Bay coal-laden for Wilmington.

Steamer Sardonyx has completed repairs in San Francisco, and Capt. Gaudin expects to be able to leave with her for Victoria with a full cargo on the 5th of July.

GOVERNMENT STREET. — Business is gradually spreading towards James Bay Bridge. Within the past week three places of business south of Fort street have been leased. The James Bay trade is becoming of great importance.

THE hull of the steamer Ada is alongside the Hudson Bay Co.'s wharf. She will be used for the purpose of carrying lumber. The steamer Dunsmuir brought her down from New Westminster Monday night.

School Examination.

GIRLS' PUBLIC SCHOOL.

Yesterday morning the examination of the girls public school took place in the school building. This department is in charge of Miss Williams as principal with Mrs. Caldwell, Mrs. Reid, Mrs. Richardson and Miss Jackson as assistants. The ages of the children range from 6 to 14 years and there are 361 on the roll with an average daily attendance of 200. The course embraces reading, writing, arithmetic, composition, chemistry, drawing, history, spelling, dictation, geography and singing, and the general progress evinced was very satisfactory, especially in reading, grammar and composition. The writing was also very good, and a number of very well executed maps were shown, particularly a large map of British Columbia enlarged from one about 6 inches square by Miss Mary Hibben. The specimens of composition both in letter writing and original stories were above the average. In the latter even comparatively young girls showed an aptitude for observation and the art of weaving in incidents from their personal experiences that would do credit to an old story writer while the good moral tales might throw Miss Edgeworth into the back ground. The general average of the school was 56 per cent., and subjoined is a list of those who have passed examination for promotion:

LIST.

AFTERNOON PROCEEDINGS

The proceedings in the afternoon took place in the Philharmonic Hall which was completely filled by the friends and parents of the children, the spectacle being a most pleasing one. The school trustees, Messrs. Fell, Wilson and Chambers, were present, and the following entertaining programme was gone through and received with much applause. Miss Williams presided at the organ:

The proceedings concluded with the National Anthem.

SAANICH.—Rain has fallen in copious showers in Saanich district during the past few days and crops which were drooping are fresh and green. Preparations for the great farmers' picnic on Dominion Day are progressing. A band of music has been engaged and every necessary for a good time will be provided for visitors from the city.

THE temporary repairs of the Connaught and Gettysburg have been effected by Mr. Harman. The Connaught will be pumped out.

Cricket—Victoria vs. H. M. S. Swiftsure.

The cricket match between the above clubs was played on Saturday at Beacon Hill. The honors so far being equally divided the result of this match was looked forward to with much interest. The Victorians were first to bat, Dawson and Luard bowling. The seventh wicket fell for 45 runs, Bovill being the chief contributor with 16. At this point the batting was much stronger; the three remaining men running up the total to 74, Tye with 16, tying Boville, for the top score. With 75 runs to win Thomas and Neat commenced the batting for the Swiftsures Runs came slowly but surely, both men playing carefully and well when the former spooned a ball to Eberts though not until he had made 18 in good style, one wicket for 36. Neat was soon afterwards dismissed by a catch off; Bovill having in his 40 runs displayed good cricket and a patient defence. Four for fifty, matters now looked rosy for the Swiftsures. But the glorious uncertainty of the game was now shown, for the next five went out for 24 runs, the last man being cleverly thrown out by Eberts, thus tying with 74. The Victorians then went in again when Irving showed some splendid form, running up 41 without giving a chance. The fifth wicket fell for 80 when time was called, the match ending in a draw. A large number of spectators assembled to witness the game. The Swiftsure band being an additional attraction.

The following is the score:

Sherman's Circus.

This circus company gave their first performance last evening on the vacant ground at the corner of Blanchard and View streets. The audience must have numbered some 900 at least. The intelligent feats of the horses Tommy, Barney and Jack actually require to be seen to be believed; the careful shifting of feet that Tommy employed in his endeavors to balance himself on the see-saw, showed the large amount of the animal's intelligence aided and developed by patience and kind treatment. The acrobatic display of the Morosco brothers and the slack wire act were very good, as also were the feats of strength displayed by a lady in the ring who supported with her teeth a table, on which stood a man. The equestrian performance of another lady was much appreciated, while the bareback riding of an acrobat on a dappled grey toward the close of the entertainment took the people by storm, and was long and loudly applauded. The side shows comprised among other attractions the leviathan ox (3200 pounds), the Circassian lady and the armless lady, etc.

There will be a matinee this afternoon and another performance this evening.

The entertainment, which was everything that was promised, concluded with a variety concert.

TUESDAY, June 26.

DRUNK AND DISORDERLY.

Thos. Cruickshank, charged with being drunk and disorderly, was fined 5s. and costs.

ALLEGED ASSAULT.

Henry Henley on remand from yesterday.

Mr. C. Wilson remarked that the prosecutor had not put in an appearance and objected to the re examination of Dr. Jackson as a witness for the prosecution as the case had closed. He reminded his honor that he (Mr. Wilson) on behalf of his client had a right to demand the decision of his honor in this case as there was no apparent reason for further delay.

His honor said he should adjourn the case for one day to enable the prosecutor to appear.

Court then adjourned.

THE EXCURSION TO YALE.—Mr. McLennan, who represents the Yale excursion committee, has completed arrangements with the C. P. N. Co. with respect to the carriage to and from Yale, and from a point below Hope to the end of the track, of excursionists at a liberal reduction on regular rates. The committee appear determined to make this excursion the pleasantest of the summer; and no doubt hundreds will avail themselves of the opportunity to cry: "Bless me, this is pleasant riding on a rail."

THE *Post-Intelligencer* complains that the Chinese are distributing themselves all over Seattle instead of confining themselves to a quarter. The result of selling property to Chinese in other cities has been this: Whites object to living near a Chinese colony, property depreciates, Chinese purchase more, until in a little while they have acquired title to the most eligible locations for business at a sum far below their value.

STEAMER ACCIDENT.—The steamer Hope, which carries the mails between the gulf islands, blew out her cylinder head on Monday. She was towed into Port Townsend by the revenue cutter.

ALASKA CUSTOMS REGULATIONS.—The sealing laws are to be enforced in Alaska by order from Washington. British vessels visiting those waters must therefore be on their guard.

SAANICH PICNIC.—Parties desirous of participating in the great picnic at Saanich should engage teams immediately at the Victoria Transfer Company's stables, corner Johnson and Government streets. *

AWARDED.—The contract for building a two-story house with eight rooms, at the corner of Johnson and Quadra streets, for Mr. Geo. North, has been awarded to Mr. Elford by Mr. Teague, architect.

H. M. S. MUTINE with Rear Admiral Lyons will return to-day from Port Moody.

Report of the Fisheries of British Columbia.

The report of the fisheries of British Columbia for the year 1882 by Alexander C. Anderson, Esq., inspector of fisheries, is at hand, and contains some very interesting information. The total cash value of the catch for 1882 is stated to be $1,842,675.05, showing an increase over 1881 of $388,353 79. The value of vessels, nets, etc., employed is $229,670, canneries and other fishing stations $402,000, employing 5215 hands, including 79 sailors in the sealing fleet. The yield of canned salmon, cases 4 dozen one-pound cans, 1882, is 255,061, showing an increase of 877,785 cases. Twenty canneries have been operated during the year. About 1700 barrels and packages of salt herring were put up for the Australian market.

The oil business of the Barrard Inlet Fishing Co. has been moderately productive. The dogfish oil production at Skidgate has increased, but the oyster business has made little advance, but the lesees of Mud Bay flats are prosecuting the business with vigor. Applications for leasing portions of Sooke harbor and the Victoria Arm have been forwarded to Ottawa.

The fur seal fishery has been moderately successful, the season's yield being $177,000, employing 775 tons, 54 sailors and 400 hunters.

In addition to the canned salmon about 5000 barrels of salt salmon were packed, the demand increasing. The number of cases of salmon exported to England was 223,901; to Canada, Australia and for local consumption, 31,160—total, 521,056 cases. The system of salmon licenses commenced this year has worked very effectively. The question of a salmon hatchery on the Fraser continues to be agitated. The report concludes by referring to some other matters, and concludes with the usual tabular statistics.

THE City of Victoria Rifle Association will meet at *The Colonist* new building on Friday evening, at 7½ o'clock, on business of much importance.

PERSONAL.—Capt. Clancey, manager of the Puget Sound steamboats, was in town yesterday.

MISS CAROL CROUSE has left the Raymond Holmes company in consequence of ill health.

WEEKLY COLONIST to-day.

EUROPE.

PARIS, June 23.—The jury has found Louise Michel guilty, and she was sentenced to six years' imprisonment and ten years of police supervision. Of the other prisoners charged with rioting and pillage Pouget was sentenced to eight years' imprisonment and ten years of police supervision; and Moret to one year's imprisonment. Two others were acquitted.

PARIS, June 24.—Prime minister Ferry received a letter from Marquis Tsing, Chinese ambassador, in which the latter states that his departure was due entirely to matters connected with family affairs. He will return to Paris immediately if his presence is required.

The foreman of the jury which returned a verdict of guilty against Louise Michel has received a menacing letter. When the prisoner was sentenced yesterday the audience cheered her. The commune press generally considers her sentence excessive. Even the legitimist and union advocates predict a commutation. An anarchist paper reminds the president of the court which sentenced Louise Michel that Judge Bonjean was shot by the commune.

A telegram from Saigon states that the governor of Cochin China has expelled the Annamite consuls, because of their connection with the conspiracy against French rule. The evacuation of Quinhon has been ordered.

It is reported that Challomel Lacour, minister of foreign affairs, has resigned.

Artificial Hatching.

The incubator or egg-hatching machine, has, after many trials and repeated failures, become a successful invention. Through the courtesy of Mr. Whittaker we were allowed to examine at his place of business on Johnson street a machine of this description which he has lately imported. The invention consists of a reservoir for oil with a small pipe for its passage into the well of the lamp, the pipe previously passing through a pan of water which prevents the explosion of the oil tank by heat. Above the lamp is a large double pipe between whose inner and outer shell is placed a layer of ashes to conserve the heat generated by the lamp. This heat passes up through a smaller pipe into the incubator, which resembles a vast collar box more than anything else, with a door at the side. Inside the machine are five triangular shaped pans each capable of containing twenty eggs, which are covered with pieces of dampened felt to furnish a natural moisture and turned twice a day. The success of the invention lays, however, in the means adopted to regulate the heat and keep it at from 95 to 105 degrees, the normal state of eggs during the hatching process. This is attained by having a valve in the pipe outside the incubator, connected with the poles of an electric battery, which likewise communicate with a thin brass plate placed inside the incubator; and it is by the expansion of this in consequence of the increased heat, that a junction of the positive and negative currents is effected and the valve attached to the positive pole is attracted to the negative. The pipe is thus closed and the heat shut off, being in fact regulated by the expansion or contraction of the brass plate. Mr. Whittaker has raised in this way 34 as lively little chickens as one could wish to see, and would have been more successful had not the heat, owing to the plate having been too highly registered at one time during the process, amounted to 120 degrees. One great advantage of the incubator is that a person can always with more certainty "Count his chickens before they're hatched."

Central America.

GUATEMALA, June 24.—It is reported that Schlessinger, the well known speculator, has left Guatemala for the purpose of securing letters of recommendation from the Belgian charge d'affaires. Suits are pending against him for appropriating railroad funds.

China.

SHANGHAI, June 23.—The difficulty between China and France is adjusted. Li Hung Chang is expected to return to Pekin immediately.

OUR MONTREAL LETTER.

(From Our Regular Corrrspondent.)

MONTREAL, June 6th, 1883.

A BANK PRESIDENT'S SPEECH.

The annual speech of the President of the Bank of Montreal is always looked for with much interest throughout the Dominion since it furnishes the chief officer of that important financial institution with an opportunity to give the country valuable information and advice not only with reference to the Bank but with reference to the business of the country generally. This year Mr. Smithers has to confess himself not a little disappointed with regard to the Bank because it has not quite reached the goal of its ambition, $6,000,000 rest, although after paying ten per cent dividend the Bank has been able to add $250,000 to the rest (which now amounts to $5,750,000 the highest point yet touched) and to carry $322,192.24 to the credit of profit and loss. Mr. Smithers claims that his prophecy of last year with regard to the business of the country generally has been justified by the stringency of the money market and the large number of failures which have characterized the year. For the future while he recommends caution he sees no sufficient cause for distrust or anxiety. He says "I am inclined to think that the best advice that can be given to the commercial community to day is to keep credits within reasonable limits both as regards time and amount; they are unquestionably too long. This done I think or rather hope we may look for a fair degree of prosperity."

RAILWAY TROUBLES.

The *Globe's* second "Pacific scandal" has not created so much excitement in Montreal as it would have done had it been published during the session. The vice-President of the Canadian Pacific Railway flatly denies that they were compelled to take over the contractor's plant at $70,000 as alleged by the *Globe*, the only part they wanted and that at a valuation."

MISS CHAFFY'S MISTAKE.

The "Lord Cantyre" marriage case is being tried here. Mr. B. W. Richards of Brockville brother to one of Miss Chaffeys' guardians has testified that on coming of age she is entitled to $170,000. Mr. Reynolds, barrister of Brockville, gave evidence yesterday as to the law in Ontario and to prove that under the will of Mrs. Chaffley's father the consent of her guardians was necessary to her marriage. Mr. Lebourvean, advocate of Montreal stated that Allan "Lord Cantyre" had consulted him as to the essentials to an immediate marriage and that the issue of marriage licenses and the minister who performed the ceremony were both informed that the lady was of age which is not true. Miss Chaffey is now in Winnipeg with her guardian.

FIGHTING FOR FUNDS.

Mr. Seneca has sued the Banque Nationale for conspiracy and black mail, claiming $50,000 damages. The bank sued Mr. Seneca for the value of some Laurentian Railway bonds deposited as collateral security for an advance and subsequently abandoned their action because the directors allege Mr. Seneca threatened to cause the government to withdraw its deposit. Mr. Seneca denies any indelicateness.

LIBELLING THE DEAD.

A curious suit has just been commenced by Mr. O. J. Devlin, M.P., who sues the *Post* Printing and Publishing Company for an alleged libel on his deceased brother, the late Bernard Devlin, which was published in a pamphlet issued last year. The alleged libel relates to events so far back as 1867 and calls the late Mr. Devlin a traitor to his country and states that when going to the front in command of the Prince of Wales' Rifles during the Fenian troubles he refused to have the regiment filled up.

WEARISOME POLITICS.

It seems to be very doubtful whether the Hon. Mr. Mousseau will venture to contest Jacques Cartier again where a great opposition is being organized, and rumor says to-day that he will try his luck in Montreal, the sitting member, Mr. Richard, resigning to make way for the Premier and being appointed School Inspector. Mr. J. A. Decary, advocate of Montreal, has been selected by the liberals and the anti-Mousseau wing of the conservatives of Jacques Cartier to oppose the Premier should he run for Jacques Cartier.

A Luminous Slate.

One of the most curious adaptations of Balmain's luminous paint is a magic slate, supplied by Messrs. Wolf & Son, which can be written upon in the dark with an ordinary lead pencil. The writing appears as so many lines of darkness surrounded by a back-ground of light. Under many circumstances such a slate may be found very useful, but it cannot fail to be a source of much amusement. No phosphorus or other inflammable material is employed in the manufacture of the slate, its luminous properties being derived solely from its power of giving out light absorbed during the day. The writing or drawing on the slate can be easily removed by a moist rag or sponge, and the slate itself cannot be worn out, its luminous powers being re-excited by exposure to the light from day to day. As a writing-tablet for desks or offices the luminous slate may also be used, resembling as it does, in color and form, the ordinary porcelain slate.

Why we Commence Dinner with Soup.

The rationale of the initial soup has often been discussed; some regard it as calculated to diminish digestive power, on the theory that so much fluid taken first dilutes the gastric juices. But there appears to be no foundation for this belief. A clear soup disappears almost immediately after entering the stomach, and in no way interferes with the gastric juice, which is stored in its cells ready for action. The habit of commencing dinner with soup has, without doubt, its origin in the fact that aliment in this fluid form—in fact, ready digested—soon enters the blood and rapidly refreshes the hungry man, who after considerable fast and much activity, sits down with a sense of exhaustion to commence his principal meal. In two or three minutes after he has taken a plate of good warm soup the feeling of exhaustion disappears, and irritability gives way to the gradual rising of good fellowship with circle. Some persons have the custom of allaying exhaustion with a glass of sherry before food—a gastronomic no less than a physiological blunder, injuring the stomach and depraving the palate. The soup introduces at once into the system a small installment of ready digested food, and saves the short period of time which must be spent by the stomach in deriving some nutriment from solid aliment, as well as indirectly strengthening the organ of digestion itself for its forthcoming duties.

Ann Hathaway's Husband.

Mr. Moncure D. Conway, writing from Stratford-on-Avon to the Cincinnati *Commercial Gazette*, says:

"The story of the poet's death by fever, after drinking, looks like a Puritan intention to stigmatize a play-actor. On the other hand neither Halliwell nor any other Shakespearean writer makes mention of the following very remarkable fact. In the old register of burials kept in the church where I have just inspected it, there is the following double entry:

Aug. 8. { Mrs. Shakespeare,
{ Anna uxor Richardi James,

There could hardly be plainer evidence that the widow of Shakespeare had married Richard James after the poet's death The Mrs. Shakespeare is inserted for identification. But who was the Richard James! Whoever he was there would have fallen to him all the letters and papers of the poet, which have so mysteriously disappeared, insomuch that not one smallest scrap of the poet's handwriting (signatures excepted) has ever been discovered. The antiquarians of England ought to institute a grand hunt for traces of Ann Hathaway's second husband. Nor should they rest until they have explored Shakespeare's tomb. That this should be prevented by the doggerel engraved upon it is unworthy of a scientific age. I have heard it suggested that if any documents were buried with Shakespeare they would be, by this time, have been destroyed by the moisture of the earth, but the grave is considerably above the level of the Avon, as I observed to-day, and even any traces connected with the form of the poet would be useful. His skull, if still turned to dust, should be preserved in royal college of surgeons, as the apex of the climbing series of skeletons, from the microscopic to the divine."

THE GREAT NATURAL DEMAND.

In order to supply the great natural demand for a remedy of real merit, one capable of cleansing the system, purifying the blood, regulating the liver, and acting on the bowels, the California Fig Syrup Company has commenced the manufacture on a laage scale of a concentrated Syrup of Figs, and is sending out trial bottles to be given away, so that it costs nothing to try it and convince yourself of its efficacy. And as every family needs a bottle it is also for sale in 75 cent and $1.25 bottles at Langley & Co.'s Drug Store, Agents for B.C. 3

NOT to avail yourself of a trial of Dr. Austin's Phosphatme means to continue suffering without limit, with none but yourself to blame, for everyone who has tested it in cases of nervous prostration, depleted system, goneness of the stomach headache, bronchitis, and all wasting diseases say, "Never before did anything act like it." For sale by all druggists. Price, $1. 6tdlmw

DR. AUSTIN'S Phosphatme is wonderful in its curative effects for man, woman or child. It has been tested by thousands in and about Boston with not a single adverse report. Phosphatine supplies just the properties a diseased, wasting system is lacking and yearning for, because it contains 80 per cent. of the life-sustaining elements (for brain, bone, blood or tissues) of the human system when in health. Try it. For sale by all druggists. Price, $1. 6tdlmw

PROVINCE OF BRITISH COLUMBIA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c., &c.

To Our faithful the Members elected to serve in the Legislative Assembly of Our said Province, and to all whom it may concern,—GREETING.

A PROCLAMATION.

ALEX. E. B. DAVIE, Attorney-General. WHEREAS WE HAVE thought fit, by and with the advice of Our Executive Council of Our said Province of British Columbia, to prorogue the Legislative Assembly of Our said Province until the Twelfth day of July, one thousand eight hundred and eighty three.

NOW KNOW YE that We do, for that end, publish this Our Royal Proclamation, and do hereby prorogue the Legislative Assembly accordingly until the TWELFTH day of JULY, one thousand eight hundred and eighty-three; hereby convoking, and by these presents enjoining you, and each of you, that on THURSDAY, the TWELFTH day of JULY next, you meet Us in Our said Legislature or Parliament of the said Province, at Our City of Victoria, and therein do as may seem necessary. Herein fail not.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of British Columbia to be hereunto affixed WITNESS, the Honorable CLEMENT F. CORNWALL, Lieutenant-Governor of Our said Province of British Columbia, in Our City of Victoria, in Our said Province, this Twelfth day of May, in the year of Our Lord, one thousand eight hundred and eighty-three, and in the forty sixth year of Our Reign.
